SGR-8106-SMK

SIP single line cordless DECT master handset

## Customisation

AEi hears our customers voices — we fully understand that many organisations will need their own brands and functionalities for internal and external use to create value and maintain brand standard.

AEi designs and manufactures the corresponding items like faceplates, function keys settings, hotel logos in software, and other additional information required to personalise the handset for each customer. Let us know your requirements and preferences, and we will work to incorporate them into your project.

- Unique logo
- Background image customization
- Service softkey customization

- Esthetic design
- With/ Without speaker
- Corded/ Cordless

- 1 or 2 Lines
- Standard/ Slim design

- Required function keys
- Unique logo

- Icons on screen in carrousel style
- Unique logo

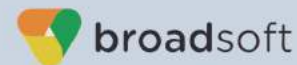

- Base lower case & stand PMS black
- Base upper case, H/S top & bottom cover PMS black
- H/S coil cord PMS black

## Market reference

## Popular PBX compliant
